

QUALITY POLICY

It is the policy of LaBarge Coating to provide the highest quality, defect-free products and services that meet and, whenever possible, exceed our Customer's expectations and exacting standards. We, as a whole, are committed to achieving complete customer satisfaction and the continual improvement of our practices by providing relevant on-going training, acquiring and responding to customer feedback, comments and suggestions, assessing and reacting to processes that negatively affect our Cost of Quality, and striving to maintain a world-class standard at the most competitive cost possible.
